1 Introduction

1.1 Purpose of this document

- 1.1.1 The purpose of this document is to present the annotated photographs of views towards the existing A358 and the site from within the landscape and visual study area. This document is to be read in conjunction with Preliminary Environmental Information (PEI) Report Chapter 7 Landscape.
- 1.1.2 The annotated photographs have informed the landscape and visual impact assessment and provide visual context for stakeholders unable to visit some or all locations.
- 1.1.3 Photographs were taken between February and April 2021 using a full frame sensor camera with 50 mm fixed focal length lens, mounted on a tripod at a height of 145 cm above ground level. An image captured in this way is regarded as being the closest representative to that seen by the human eye when viewed at a width of 39 cm from a distance of 542 mm.
- 1.1.4 Viewpoint locations are shown on PEI Report Figure 7.4 ZTV and Proposed Viewpoints.

Appendix A Viewpoint Photographs
