

Assessment Viewpoint 23: Someries Castle 1

National Grid Reference: 511958.495, 220218.788, 157.20aod
Date / Time: 19th December 2018 (12:05)
Weather Conditions / Visibility: Sunny / Good
Camera & Lens: Canon EOS 5D MKII 50mm lens
Horizontal Field of View: 75 °
Accurate Viewing Distance: 300mm

Location Plan

Baseline Description

This viewpoint is located adjoining the car park and visitor entrance into Someries Castle. The view is orientated in a northerly direction and is representative of the view experienced by visitors to Someries Castle and grounds.

The view overlooks a storage area and outbuilding associated with Someries Farm enclosed by an earth bund.

Anticipated Change to View

The Proposed Development would be almost entirely screened from this viewpoint. Works 2d would however be partially visible in the middle-distance, above the earth bund in the central part of this the view from Phase 2b.

Assessment Viewpoint 24: Someries Castle 2

National Grid Reference: 511916.089, 220189.791, 157.79aod
Date / Time: 19th December 2018 (12:10)
Weather Conditions / Visibility: Sunny / Good
Camera & Lens: Canon EOS 5D MKII 50mm lens
Horizontal Field of View: 150 °
Accurate Viewing Distance: 300mm

Location Plan

Baseline Description

This viewpoint is located within the grounds of Someries Castle, approximately 250m to the south of the Main Application Site. The view is orientated in a northerly direction and is representative of the view experienced by users of public footpath Hyde 4B, west of Someries Castle, and visitors to Someries Castle and grounds.

The view overlooks an area of rough pasture and is framed to the left and in the foreground by mature hedgerow vegetation and trees and to the right by Someries Farmhouse and the coniferous vegetation to its west.

Footpath Hyde 4B crosses the view in the foreground and farm machinery can also be seen in the centre-right of the view. The western end of the airport runway is discernible in the middle-distance within the centre part of the view, with buildings on Percival Way and elevated parts of Luton visible on the horizon beyond.

Anticipated Change to View

The Proposed Development would be almost entirely screened from this viewpoint by intervening vegetation or built form. Works 2b.01 and 2b.02 (Phase 2a), and built form. Works 2c.04 and 2h (Phase 2b) may however be discernible within the airfield in the centre part of this view; and may be experienced alongside activities associated with installing the bridge at Works 6a.02 beyond. Glimpses of Works 2d may also be discernible in the far right part of this view from Phase 2b.

Horizontal Field of View: 150 °
Accurate Viewing Distance: 300mm

Location Plan

Baseline Description

This viewpoint is located within the grounds of Someries Castle, approximately 200m to the south of the Main Application Site. The view is orientated in a north easterly direction and is representative of the view experienced by visitors to Someries Castle and grounds.

The foreground of the view shows an area of scrubby pasture interspersed with farm machinery and equipment. The ruins of Someries Castle can be seen across the right of the view and Someries Farmhouse, beyond mature vegetation, in the centre part of the view. The Gulfstream and Tui hangars, hotels and office buildings on Percival Way and adjoining the junction of Airport Way and New Airport Way are visible to the far side of the runway in the far-left part of the view.

Anticipated Change to View

The Proposed Development would be almost entirely screened from this viewpoint by intervening vegetation or built form. Works 2b.01 and 2b.02 (Phase 2a); and Works 2c.04 and 2h (Phase 2b) may however be discernible within the airfield in the centre left part of this view. Works 2d would also be discernible in the middle-distance from Phase 2b, beyond the castle and above the earth bund in the far-right part of this view.
